<b>Content</b>	False ceiling and cladding has been widely applied for internal and external decoration in Hong Kong over 30 years. With regard to the building safety, the Building Department has drafted Standards and Practices for the design, material & fixing of cladding works since 1979. And statutory submission to Building Department is required so as to fulfill the PNAP APP-16. At the same time, in order to promote professional skill development of the false ceiling and cladding fixing workers, “Designated Workers for Designated Skills” Provision has been implemented since 1 April 2017.
